1				Excellent	100%	100%	100%	The training was exceptionally informative, well-structured, and precisely focused on its objectives. It provided valuable insights and practical guidance on advanced techniques for legal research and drafting well-reasoned judgments. The resource persons were highly knowledgeable and demonstrated

								remarkable expertise in their respective fields. Their effective delivery made the sessions particularly engaging and worthwhile. It would be an injustice not to acknowledge and appreciate the excellent arrangements, particularly the quality of meals and the warm hospitality extended throughout the training. Everything was commendable. As a minor suggestion for further improvement, the chairs in the lecture hall may kindly be lubricated, as their creaking noises

								occasionally cause distractions during the sessions. Other than this small observation, the overall training experience was excellent and truly worthwhile.

2	abdul majid afridi	majid.afridi.civiljudge@gmail.com	below are the suggestions.	Excellent	50%	75%	75%	The training conducted at the Judicial Academy was excellent, informative, and highly beneficial. All the resource persons were knowledgeable, and we learned a lot from their sessions. However, I would suggest that more focus be given to the practical application of AI in day-to-day judicial work,

								including drafting judgments and orders, legal research, and analysis of evidence. It would be more beneficial if a judicial officer who has received proper training and has practical command over AI is further engaged to train fellow judges, as such an officer would better understand the actual needs, nature, and challenges of judicial work. Practical demonstrations and examples from real court proceedings would make the training more useful and effective.

8	hajra	hajraarsh@gmail.com	The daily training schedule may preferably be from 9:00 a.m. to 2:30 p.m., with two breaks of 30 minutes each. A basic, simple one-dish lunch arrangement for gunmans/drivers	Very Good	75%	100%	100%	In my opinion, a three-day training programme on this particular topic would be sufficient to cover the subject effectively. The lessons were informative. However, some sessions were slightly prolonged. A relatively shorter and practical exercises and hands-on activities would make the sessions even

								more effective and engaging. Thank you for this wonderful opportunity and experience of learning
