The resource person failed to anticipate the logistical demands of both the Excel and PowerPoint lectures. As most participants are quite below the level being aspired for in the course, they did not have practice templates ready on their laptops, which hindered real-time learning during the class. It would have been extremely helpful if the resource person had shared pre-named templates for both programs in advance. Moving forward, please ensure the resource persons provide these files for any such next modules to facilitate effective practice.
