Question: Suggestions/Comment (mandatory): *
In my view the suitable person for the given lecture is a career judicial officer. However, t present learned resource person. in my humble view, was not a good choice. the learned resource person discussed the factor delay in civil litigation in detail by drawing comparisc between pending civil cases and pending criminal cases. Both the said categories are distinct

and different in all aspects, keeping their stages, number of parties, law applicable, stakeholders involved and so on. Similarly, The learned resource person overlooked many standing orders, rules and provisions. For example, he seemed to be unaware of the standing order that summons upon a government functionary need to be served through controlling authority. The learned resource person suggested some other modes and ways. The learned resource person referred the Indian system for involvement of courier services and Bangladesh for modern means and technology. However, he was unable to emphasize that in addition to sending of summons through process serving agency, simultaneous sending of summons through courier or a registered post AD is mandatory after introduction of certain amendments in CPC back in the year 2020. Similarly, service through modern technological modes is by now personal service. the resource person was presumed to sensitize the trainees vis a vis the prevailing legal framework.

As we are in an advance stage of digitisation of record, but this aspect was completely missing in the lecture. it is suggested that the contents of the course may be updated and amended accordingly.

Submitted: 01 Apr 2026, 05:59 PM

Question: Suggestions/Comment (mandatory): *
In an era revolutionized by AI, we remain shackled to century-old methods of splitting records into Part A and Part B. Why cling to these colonial traditions when digitization is the clear path forward? Scanning of records has already taken place in nearly all districts. Lectures and training must be imparted on zero movement of physical files instead of these outdated practices.

The resource person had no command on the subject, so, what is the utility of his communication skills and professional background.

Submitted: 07 Apr 2026, 05:39 PM

Question: Suggestions/Comment (mandatory): *
the resource person delivered six lectures and his total slides were 557. That means almost 95 slides in one lecture. It's overdoing it. And then each slide was overdone with coloration, animation, jargon, and what not. That was distracting. He took 9 hours in total but gave 20 minutes to Q and A and answered only 4 questions

All the more important, please see our topics and subtopics in the SOA (schedule of activities), he couldn't align with those topics. Didn't utter anything on those subtopics. So, preparation was off the target. It felt like an autobiography.

while the lecture/session was good but only to the extent of relevant topic, i.e, the electronic/ digital or online tenders/bids for procurement, a good amount of time was given to top[illegible]t were already taught, however the same served useful for those participants who ere hav[illegible] some queries in that respect. Moreover, the e-bids are already operative but nothing was mentioned about as to how the district judiciary (which conduct any such proceedings und[illegible] the strict supervision and guidance of Competent Authority--the AUgust PHC, PEshawar) sh[illegible]

proceed. To be more accurate, it was stated that the online membership(LOgin ID)) is currently with P.H.C but since the it would the Distrcit judiciary who will conduct their online bids, then what course has to be adopted in online/e-biids. in fact the ditric tjudiciary shall have its own log-in ID, through which the process shall be conducted and if it is as such, then no procedure was taught who, how and in which manner such setup has to be eastbalished in the District since the process involved in not only complex, technical and sesitive but also requires a dedicated body or Cell which shall exclusively regulate the affairs in this regard. This cosequently pre supposes the creation or establishment of such cell on war footing for the obvious reason that E-PADS is oerational and all procurement are now conducted through it but in respect of whcih no district has such set up. This lack might put us in a situation where the procurement might be processed thorugh previous/manual procedure but the same will amount to deviation from thr cureent relevant legal provision in this regard. And since the same is a legal procudere in this regard for procurement, we can also not think of any scapegoat measure other than that which is in force.
